Natural & Propane Gas...

are the safe, clean, efficient sources of energy provided to over 11,000 residential and commercial customers in Worcester County by Sandpiper Energy, a subsidiary of Chesapeake Utilities. For over 150 years, Chesapeake has provided superior service to our customers and communities on Delmarva by successfully delivering reliable energy solutions that are environmentally and economically smart.

If You Smell Gas...

- Leave your home or business immediately.
- Do not use your telephone, turn on/off light switches, or light a match.
- Do not do anything that might create a spark or flame.
- Immediately call the emergency number **800.427.0015** or **911** from a cell phone outside the building or from a neighboring location to report the suspected leak.
- Do not re-enter the building until professionals tell you it is safe.

Our gas has been odorized with mercaptan so that you can readily detect it if it is leaking. The "rotten egg" smell from the mercaptan alerts you that there is gas escaping and a potentially dangerous situation may exist.

If You Plan to Dig...

Before starting any excavation activity, please call the nationwide one call number 811. This call will notify us along with other member utilities to mark out our underground facilities. Once the facilities are located, you may begin your excavation but be careful digging around these facilities. Even digging with a shovel may sever the underground line which could result in serious injury. Always be careful. For more information on pipeline safety, please contact us at **800.427.0015** or visit sandpiper-energy.com or safegasmaryland.org.
